Permission to Enter

Permit #: _____

Owner or Contractor: _____ Phone #: _____

Property Address: _____ Parcel Number: _____

A phone number must be provided where applicant can be reached Monday to Friday, 8-4:30.

I understand that the City of Napavine requires owner permission for city personnel to enter private property to conduct permit processing, review, and inspections. I also understand that my failure to grant permission to enter or an inability to contact me for prior notification of the time and date of inspection entries may result in denial or withdrawal of a permit or approval.

Prior notification of the date and time of inspection is: ☐ Not Required ☐ Requested

Applications have been submitted for the following services:

1. _____
2. _____
3. _____
4. _____

Which may require on site permit processing, review, and inspection by employees of the Community Development Department, and/or Public Works Department for the property stated above.

By my signature below, permission is granted for representative(s) of the Community Development and Public Works Department to enter and remain on and about the property for the sole purpose of processing such permits and performing required inspections and/or reviews.

By my signature below, I certify that I am either the current legal owner of this property or their authorized representative. With this document I take full responsibility for the lawful action that is this document allows.

Inspections

The following guidelines are provided to clarify when it is necessary to notify this office regarding inspection.

- UTILITY SERVICES: **Before** back-filling ditch for water and/or sewer lines.

NOTE: All construction must meet set back requirements which will be verified at the time of the below inspections.

- POST HOLES: After all holes are dug and concrete is placed in bottom of holes.
- FOOTINGS: After forms are set and rebar is in place but prior to pouring concrete.
- FOUNDATION: Concrete Walls: After forms are set/braced and rebar is in place but prior to pouring concrete. CMU Walls: After completion of mortaring all blocks in place but prior to setting any plates. All bond beams or other reinforced cells to be inspected before grouting.
- UNDERSLAB: After all plumbing groundwork installed and tested with all copper and ABS wrapped or sleeved if in contact with concrete; moisture barrier installed, and any required slab insulation installed.

NOTE: The Building Official may require the removal of any foundation work done or concealed without the required inspection.

- SHEAR NAILING: Prior to covering.
- ROUGH PLUMBING: After all rough plumbing including drains, vents, and water supply lines are completed and tested.
- ROUGH MECHANICAL: After all ductwork installed and properly supported.
- FRAMING: After completion of all rough framing and windows are installed but prior to installation of sheetrock. Masonry, plumbing, mechanical, electrical rough-in are all done prior to sheetrock.
- INSULATION: After approval of framing, rough electrical and rough mechanical inspections; insulation installed and caulking completed but prior to installation of any sheetrock.
- SHEETROCK: After insulation inspection approved and sheetrock is installed but prior to taping and finishing.
- FINAL: All systems installed and building ready for occupancy.

NOTE: Any structural framework, rough plumbing, or rough mechanical covered or concealed without the approval of the Building Official may be subject to removal by the owner or contractor at the request of the building Official.

In addition to the inspection specified above, the Building Official may make, or require, any other inspections of any construction work to determine compliance with the provisions of the code.

Arrange inspections by calling (360) 262-9344. **24 to 48 hour notice is required.**
Advance planning by the owner or contractor is recommended to avoid unnecessary construction delays.
